

To whom it may concern,

K-Love (94.3) has been very encouraging and uplifting to me when I was going through hard times. Many people my age (23), younger and older than me have shared the same comment. A lot of Christians in Chicago are very proud that our country has been protecting our freedom of religion and expression of religion. Many people, of all ages, will be very angry if there will be a priority given to the broadcast service known as Low Power FM (LPFM). Thank you for your time to read and for considering the public's opinion important.

Sincerely,

Mircea B. Ionescu
